Amendments to the Drawings
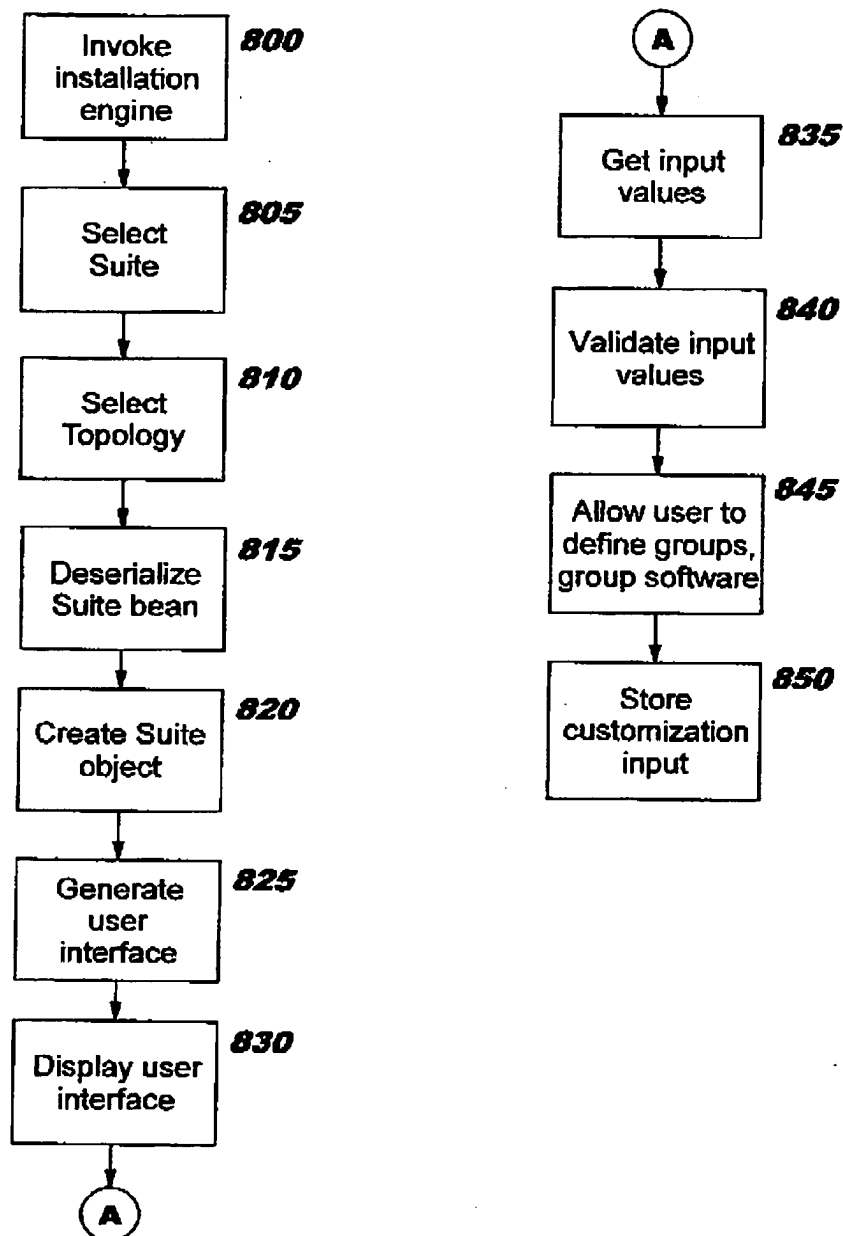

Fig. 8 is amended to change "Creates" to "Create" in Block 820.

The amendment to Fig. 11A replaces "Machine" with "Group" in Blocks 1130, 1135, and 1140. This change corresponds to the change made herein to p. 39, lines 13 - 14 of the specification, and brings the text and Fig. 11A into alignment with the text on p. 31, lines 15 - 18, where it is stated that component objects, also referred to as instances of ProductModel, are stored in a Group object. (The text on p. 39, lines 13 - 14 refers to obtaining component objects, and they are stored in a Group object, not in a Machine object.)

No new matter is introduced with these corrections, which are supported in the specification and drawings as originally filed.

Serial No. 09/930,359   -11-   RSW920010067US1
